Science – Animals including humans

YEAR 5

The changes that happen during puberty

During puberty, boys and girls will undergo physical changes as they get older. They can increase in height and weight, they may get acne or spots and their moods can change regularly. In boys, they may grow body and facial hair, their voice can get deeper and their Adam's apple may start to protrude. They may also start to have wet dreams. In girls, their breasts will grow, their body fat may increase, including the widening of their hips and they will start menstruation.

Fetal Growth From 8 to 40 Weeks
