Copies will not to be taken of any images without relevant authority and consent from the Data Controller and/or DSL and the parent/carer.

- The opportunity for parents/carers to take photographs and make videos can be reserved by the school on health and safety grounds.
- Parents/carers are only permitted to take or make recording within designated areas of the school. Photography is not permitted in sensitive areas such as changing room, toilets, swimming areas etc.
- The right to withdraw consent will be maintained and any photography or filming on site will be open to scrutiny at any time.
- Parents may contact the school's DSL to discuss any concerns regarding the use of images.
- Photos and videos taken by the school and shared with parents should not be shared elsewhere (e.g. posted on social media site), to do so may breach intellectual property rights, data protection legislation and importantly may place members of the community at risk of harm.

Use of Photos/Videos by Children

- The setting will discuss and agree age appropriate acceptable use rules with children regarding the appropriate use of cameras, such as places children cannot take the camera (e.g. unsupervised areas, toilets etc.).
- The use of personal devices e.g. mobile phones, tablets, children's own digital cameras, is covered within the school's Acceptable Use Policy and Use of Mobile Technology and Social Media Policy.

- Members of staff will role model positive behaviour to the children by encouraging them to ask permission before they take any photos.
- Photos taken by children for official use will only be taken with parental consent and will be processed in accordance with the Data Protection Act 1998.
- Parents/carers will be made aware that children will be taking photos/videos of other children and will be informed how these images will be managed by the setting e.g. will be for internal use by the setting only (not shared online or via any website or social media tool).
- Photos taken by children for official use will be carefully controlled by the setting and will be checked carefully before sharing online or via digital screens.
- Still and video cameras provided for use by children and the images themselves will not be removed from the setting.

Use of Images of Children by the Media

- Where a press photographer is to be invited to celebrate an event, every effort will be made to ensure that the newspaper's (or other relevant media) requirements can be met.
- A written agreement will be sought between parents and carers and the press which will request that a pre-agreed and accepted amount of personal information (e.g. first names only) will be published along with images and videos.
- The identity of any press representative will be verified and access will only be permitted where the event is planned, and where press are to be specifically invited to attend. No authorisation will be given to unscheduled visits by the press under any circumstances.
- Every effort will be made to ensure the press abide by any specific guidelines should they be requested. No responsibility or liability however can be claimed for situations beyond reasonable control, and where the setting is to be considered to have acted in good faith.

Use of Professional Photographers

- Professional photographers who are engaged to record any events will be prepared to work according to the terms of the settings e-Safety policy.
- Photographers will sign an agreement which ensures compliance with the Data Protection Act and that images will only be used for a specific purpose, subject to parental consent.
- Photographers will not have unsupervised access to children and young people

Children's Images: Frequently Asked Questions for Parents/Carers

Why do we need a policy?

Schools, playgroups, nurseries and youth groups have always used photographs as a way of celebrating achievement or seeking publicity for fundraising etc. Families and children often derive great pleasure from seeing their loved ones in print or on a website. We want to ensure that everyone can continue to enjoy these activities safely. However parents/carers need to be aware that placing any identifying information in the public domain has risks and will need to understand these issues in order to give properly considered consent. It is important that parents/carers and schools/settings have the opportunity to fully consider the issues before any problems can arise.

So what are the risks?

The most highly publicised and worrying risk is that a child who appears in the paper or on a web site may become of interest to a predatory sex offender. Locating people through the internet has become extremely easy, using widely available software, so if there is a picture and the name of a school/setting together with the name of the child then it could be quite easy to find out the child's address and even work out their likely route to school/setting. There are also other specific groups of children and families whose safety could be put at risk if identified e.g. families fleeing domestic abuse. To limit these potential risks, we will take appropriate steps, as outlined in the attached consent form, to safeguard children and the wider community.

Isn't this just scaremongering?

Sadly not. We have had cases in Kent of families receiving unwelcome phone calls following appearances in the press. However this is rare so it is important to have a sense of proportion in these matters. Remember we want to celebrate success and achievement but parents must be aware of risks in order to make an informed decision.

What about school/setting websites?

The same concerns apply to school/setting controlled online sites and there is an added concern that images of children may be copied directly from a site which can then be manipulated or changed by another person. Settings/schools can copy protect images and use lower quality images which means they cannot be usefully enlarged but this can be bypassed so must not be relied upon to keep images safe.

I want to do my own recording of the school/setting play/event is this ok?

Taking pictures or recordings of your own children for your own personal use is ok. The difficulty arises when other children are also be filmed. It is important that we are all aware that some members of the community may be vulnerable and must not have their image shared online as they could be put at risk from harm. You may not always know who these people and we need everyone's support to protect the whole community. It's also important for us all to role model positive behaviour for children, so it might be a sensible idea to check first before posting any images online which contain other children than your own. Parents/carers should not copy images from the school/setting website without appropriate permission from the school/setting.

Letter Template - Parental Consent for Images

Dear Parent/carer

This letter explains why we will need to ask for your consent before we are able to take photographs of your child during their time at St George's CE Primary School.

Generally photographs are a source of pleasure and pride. We believe that the taking and use of photographs can enhance the self-esteem of children and their families and therefore is something to be welcomed and appreciated.

We may take photographs for a number of reasons whilst your child is with us, including:

- documenting and recording education activities
- recording their learning and development progress
- recording and celebrating special events and achievements

We will also encourage children to be active learners, and to become involved in using cameras themselves by taking photos of their surroundings, activities and of each other.

We do however recognise that with the increase use of technologies, particularly digitally and online, the potential for misuse has become greater and we understand that this can give rise to concern. We will therefore endeavour to put effective safeguards in place to protect children and young people by minimising risk.

We are mindful of the fact that some families may have reasons why protecting a child's identity is a matter of particular anxiety. If you have special circumstances either now or at any time in the future which would affect your position regarding consent, please let us know immediately in writing.

We have a specific policy regarding the use of images and also include the safe use of mobile phones and personal devices as part of our online safety policy, which you are welcome to view or take a copy of at any time.

To comply with the Data Protection Act 1988, we need your permission before we can photograph or make any recordings of your child. If your child is old enough to express their own view, you may want to consult with them about categories of consent, and we invite you to use this letter to explore their feelings about being photographed at the setting.

Please read the forms overleaf and email office@st-georges-wrotham.kent.sch.uk to withdraw consent from any area.

Yours sincerely,

Headteacher

Template Group Activity Letter and Form

Dear Parent/Carer

We are staging a production/special event of on xxxxxx. We are sure some parents/carers would like to take photographs/videos of the production. As you know we have a policy in place with regards to the taking, making and use of images and you will have previously signed a consent form stating whether or not your child could be photographed. In circumstances, such as productions or special events, we request specific consent before photographs can be taken by a third party. If you wish to take photos at the production there is a strong possibility that other children will also be included within the picture. We therefore need to ensure all parents/carers who have children in the production are happy for photographs to be taken, and hence need to request their permission.

We all enjoy and treasure images of our family and friends; family events, holidays and events are moments we all like to capture in photos or on video. We now have the exciting dimension of adding our images and videos to our online social networks. This means that we can easily share our photos and video with family and friends. Whilst this can be very useful to all of us we must ensure we protect and safeguard all children and staff, including those who do not want to have their images stored online.

- Some children are at risk and **MUST NOT** have their image put online. Not all members of the community will know who they are.
 - Once posted and shared online any image or video can be copied and will stay online forever.
 - Some people do not want their images online for personal or religious reasons.
 - Some children and staff may have a complex family background which means that sharing their image online can have unforeseen consequences.
- Therefore in order to keep all members of the community safe we must all '**Think Before We Post**' Online

At St George's CE Primary School we are happy for parents and carers to take photos and video of events for personal use but we request that these images are not distributed or put online. This is to protect all members of the community. Please be aware that parents are not permitted to take photographs or to make a video recording for anything other than their own personal use (e.g. with a view to selling videos of an event).

Should any parent/carers not agree with their child being photographed, we will consider alternative options including:

- restricting who is involved in the production/special event
- staging specific photograph opportunities

Photographs of setting productions are ones which parent/carers tend to treasure. We will therefore only prohibit the use of cameras and videos as a last resort. We hope you will support us in this.

We would, therefore, be very grateful if you would complete the slip at the bottom of this letter and return it to me by (date).

Yours sincerely

Headteacher
